Product minded software engineer with 3+years of experience in mobile and frontend development, I enjoy working on products that improve people's lives. I'm constantly looking for ways to make products better and more efficient, and I love working with a team to bring a product from concept to completion.

PROFESSIONAL EXPERIENCE

OurPass, Delaware, United States (*remote*)

April 2022 - present

Mobile Engineer

- Led development of OurPass Business App enabling 1000+ businesses to receive online and offline payments.
- Setup and managed CI/CD pipeline and deployments.
- Improved code quality by setting up and adding lint rules, pre-commit checks and unit tests, outcome;
 - Reduced bug reports and customer turnover(churn rate).

Kivifood, Lagos, Nigeria

April 2021 - March 2022

Cofounder/Software Engineer

- Managed a team of 4 people and led the development of a food delivery product for merchants and customers.
- Implemented a simple alerting system integrated with Slack which allowed us to distribute incident information to both customers and the operations team, increasing the efficiency of our day-to-day operations.
- Integrated and setup CI/CD pipeline to automate testing and deployment to app stores.
- Improved our image load time by 67% by implementing an image optimization pipeline that resizes, compresses, and caches images.

Gofast International Ltd, Lagos, Nigeria

January 2020 - October 2020

Software Developer

- Rebuilt the gofast mobile payment app, Implementing a new design, payment flow and overall architecture.
- Developed an internal admin panel for tracking app metrics and KPIs such as Acquisition, Engagement, Payments & Transactions.
- Implemented a minimal support ticketing and dispute resolution system.
